

Doctor of Ministry Program of Study

Students use this worksheet to map out their anticipated progress toward completion of the D.Min. In the rare case where a student's Advisor will be on leave as the student comes to the end of the degree program, or in the even rarer case that a student's Advisor leaves the seminary when the student is nearing completion (e.g. after the Proposal has been approved), this form serves as a guide to replacement Advisors. In such events, students should have their outgoing Advisor sign this form and place it on file with the DMin Program Administrator. Below, students should add the semester and year when they anticipate completing the requirement in question.
